

Laminat Carriers

B-7644

Laminat™ Carriers

- **B-7644** Polypropylene Carriers

1) Pull the protective foil backwards

2) Place the label in the middle leaving space for sealing on all four sides of the label.

3) Seal the carrier by placing a finger on the foil and pushing forward, thus rolling over the foil and rolling off the silicon liner.

4) Always feed the cable ties from the top, thus bending down the Laminat™ carrier along the cable.
